

# Automatic RVLS:

*Efficient, accurate, reliable*

## Various applications:

Food/environmental safety/  
water quality inspection,  
forensic examination,  
research.

## Full automation:

Automatically begin  
a series of accurate  
tasks including sampling  
pretreatment and the  
printing out of results  
at the push of the  
start button.

## Multi-functions:

Innovative integration of  
microorganism, heavy metal,  
residues, and additives  
inspection and analysis into  
the RVLS.

## Convenient & Accurate:

Only takes 10 minutes from sampling  
pre-treatment to result reporting.  
Accuracy up to 99,99%.
